IPL Data Visualization Using Tableau

- Srilathaa Vasu

Objective:

To create an interactive dashboard that highlights some of the important statistics of IPL over the years 2008 - 2017.

Problem Statement:

As a data analyst at IFP, a nationally recognized news agency, the Sports Editor of the agency has approached you to build a Tableau dashboard of IPL statistics over the years since its inception in order to create an infographic for a newsletter that their team is working on.

For this newsletter, in some cases, they will use the visual representations as you have created in Tableau directly for their infographic, and in a few other cases, they will use important statistics after trying out the different filters and customisations that you have provided for interactivity. Therefore, you are expected to build an interactive dashboard in Tableau for this purpose.

Dataset provided:

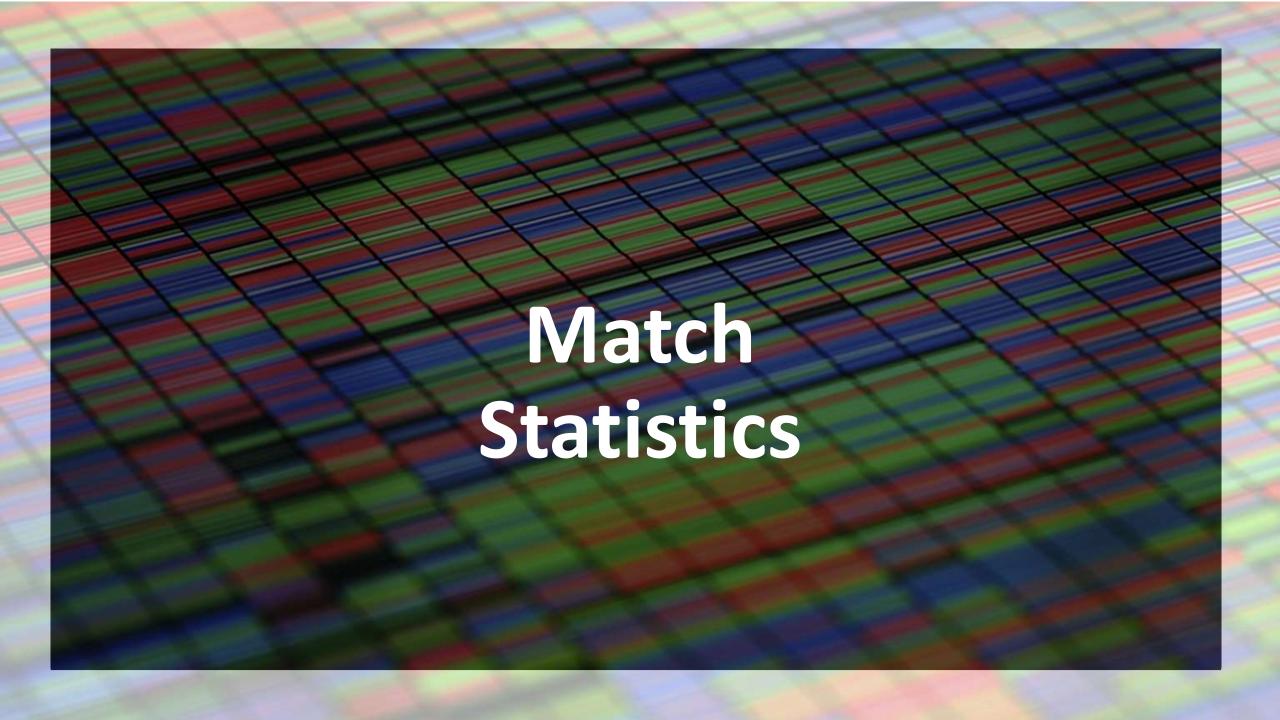

- matches.csv It contains match-level information for each and every match held in IPL from 2008 to 2017.
- deliveries.csv It contains ball-by-ball information for each of the matches.

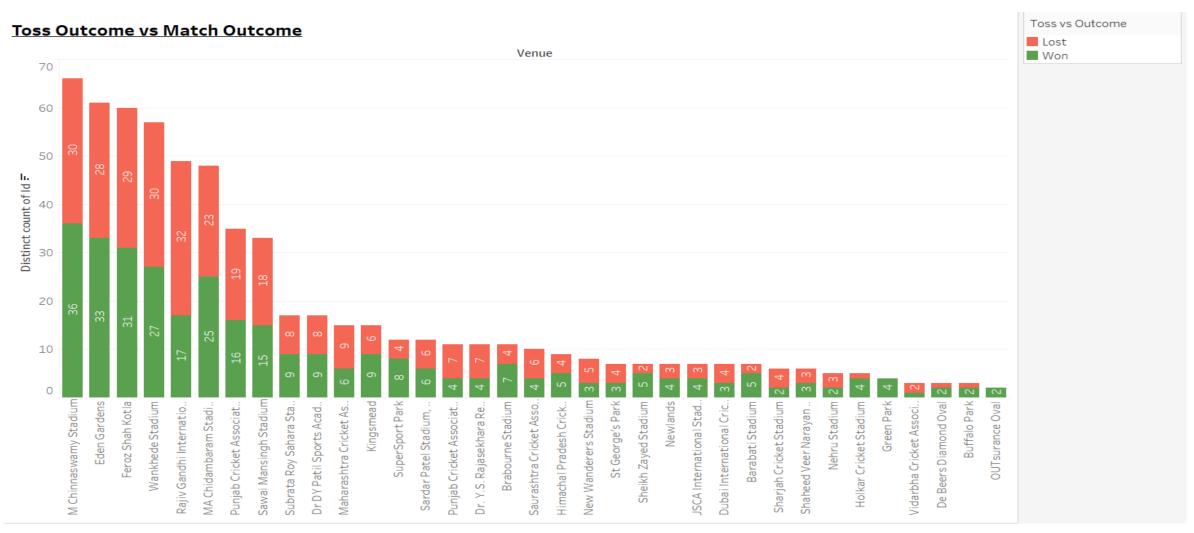

Each row in the data set 'deliveries.csv' contains:

- Match related information (batting team vs bowling team)
- Player information (Bowler, Batsman, Non-striker)
- Delivery information (Runs scored, Wickets, Extras, etc.)

Similarly, the 'matches.csv' file contains the following data:

- Teams involved
- Results (which team won, win type, player of the match, etc.)
- Match specifics (umpires, ground, etc.)

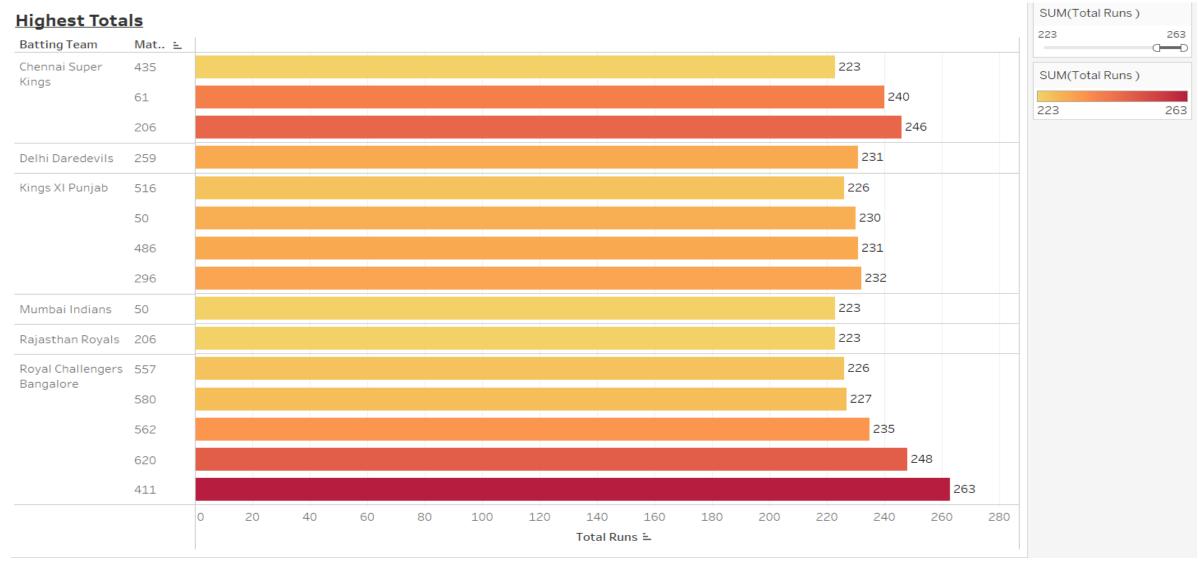

The above graph indicates the number of matches the toss winner won and lost for each venue. The green color indicates the number of matches the toss winner won and red color indicates the number of matches the toss winner lost against each venue. Maximum number of matches were played at M Chinnaswamy Stadium, Eden gardens and at feroz Shah Kotla stadiums. Maximum number of matches were won at M Chinnaswamy stadium and maximum matches were lost at Rajiv Gandhi International stadium.

The graph indicates the toss winners who choose to bat and field respectively and the corresponding number of matches they lost won. The color shows the details of the toss decision and the data is filtered on venue. Toss winners at MA Chidambaram stadium choose to bat first according to the above graph.

MAX(Win By Runs) Biggest Wins (By runs and by wickets) 120 Mumbai Indians Kings XI Punjab Delhi Daredevils Sunrisers Hyderabad 146 111 Royal Challengers Bangalore Rajasthan Royals Deccan Chargers Pune Warriors 38 Kolkata Knight Riders Chennai Super Kings 140 Kochi Tuskers Kerala 17

In the above graph, maximum win by wickets is indicated by color intensity. The size of each tile indicates the maximum wins by runs. The maximum win by wickets is 10 and the maximum runs is by Mumbai Indians.

The total runs score in each match is calculated and the highest runs are filtered based on ranges of total. RCB has the highest scores of 263 and 248 across all seasons.

Orange Cap Contenders

				✓ (AII)
SK Raina 4,548	G Gambhir 4,132	CH Gayle 3,651	S Dhawan 3,561	 ✓ 2008 ✓ 2009 ✓ 2010 ✓ 2011 ✓ 2012 ✓ 2013 ✓ 2014 ✓ 2015 ✓ 2016 ✓ 2017
